

- 1 M2 engineered board:** ✓
Meeting ANSI A 208 1-2016 standards.
- 2 Fully captured backpanel:** ✓
A ½-inch fully captured back panel adds durability and structural integrity, while a ¾-inch back stretcher resists racking.
- 3 HPL or TFL laminate:** ✓
Superior wear and impact resistance compared to wood and metal. Choose from countless colors and patterns for aesthetically appealing casework.
- 4 Robust drawer construction:** ✓
A full 4-sided drawer design includes ½-inch thick side members, hardwood dowel joinery and a full ½-inch thick non-racking, non-deflecting platform bottom.
- 5 Heavy-load drawer slides:** ✓
100-pound rated, full-extended, minimum Grade 1 per ANSI/BHMA A156.9.
- 6 Best-in-class 32mm construction:** ✓
A 32mm construction method assures consistent quality and conformity while reducing manufacturing costs. It also allows for better interchangeability and easier hardware placement.
- 7 Anti-tip shelf supports:** ✓
Adjustable anti-tilt twin pin polypropylene shelf clips are seismic-rated and lock in place to provide a dispersed shelf load. No tipping!
- 8 Easy to clean interiors:** ✓
Thermally fused melamine, not low-pressure or top-coated – for an abrasion-resistant, clean, and easily maintained interior look.
- 9 Balanced Construction:** ✓
Laminated panels follow the rules of balanced construction to reduce the risk of warping.
- 10 Separate recessed bases:** ✓
Protect the cabinet from moisture, dampness, spills or wet cleaning. Gives cabinet full support of end panel and bottom.

- 11 3mm edgebanding:** ✓
Visually attractive, as it forms a rounder smooth edge. Offers best impact resistance.
- 12 Division 12:** ✓
By specifying Division 12 you ensure that your project is built by a national company that provides product repeatability, delivers the volume you need, and is financially stable.
- 13 AWI premium-grade joinery:** ✓
Fully concealed interlocking mechanical fasteners or dowel construction for durability and tight tolerances.
- 14 Manufacturer Qualification Statement and Quality Standards.**
Look for manufacturers that ensure a high standard in customer experience from take off to delivery.

SPEC WIZARD

Writing your specifications for plastic laminate casework is as easy as 1-2-3.
